F&W CF511 PUMP MATE PORTABLE UTILITY PUMP

\$ 225.00

The PumpMate Portable Utility Pump is a 1/2 hp 115V pump that has a thermal overload protected motor, a solid cast iron pump housing for added strength, rust proof pump impeller for durability, permanently lubricated ball bearings and a moisture proof heavy duty cord with ground wire connection.

PumpMate can pump from any source, or can be used to boost pressure up to 40 psi. Comes with garden hose adapters, a puddlevac and extra brushes.

Use for lawn sprinkling, bailing out boats, pumping out flooded basements, filling or draining swimming pools, watering livestock, boosting pressure on water lines, and irrigating lawns and gardens.
